## Summary

**Front-end Developer** who develops **modern, reactive, and user-friendly web applications** using the latest technologies currently with **2 years** of development experience. Believe a perfect blend of UI architecture is one, where the goals and needs are accounted for in an **elegant, efficient, and robust design** of the UI, building **large-scale web applications, cross-browser platforms**, and design constraints on the web, and building **responsive user interfaces**.

## Experience

### Accubits Technologies Inc

July 2022 - Present

Software Developer Engineer

Remote

- Collaborated with the client to understand their specific requirements and customizations related to **frontend technologies**.
- Served as the technical **point of contact (POC) and acting Tech Lead (Front-end)** throughout the project.
- Utilized **ReactJS, TypeScript, SCSS, Redux and Ant Design (Design Library)** to implement the client's desired front-end functionalities.
- Took responsibility for overseeing the technical aspects of the project, particularly focusing on front-end development.
- Worked closely with the development team to ensure the successful delivery of the client's requirements.
- Leveraged expertise in front-end technologies to provide insights, guidance, and support to the team.
- Actively participated in decision-making processes related to front-end technology choices and implementation strategies.

### IQVIA

Oct 2021 - Dec 2021

React Engineer Intern

Remote

- Received training in front-end technologies, specifically focusing on **React.js, Material UI, Redux, CSS standards & SCSS**
- Acquired knowledge and skills to write code that is scalable, maintainable, and adheres to industry standards
- Applied the learned concepts and principles to build multiple projects.
- Demonstrated proficiency in utilizing these front-end technologies to develop functionally well developed yet visually appealing applications.
- Emphasized the importance of writing clean and efficient code, ensuring that projects are of high quality and meet industry standards.
- Leveraged the features and capabilities of ReactJS to create responsive and user-friendly interfaces.

## Projects

### IdeaGram | React.js, Firebase, Material-UI, React-Routers

[Live](#)   [Code](#)

A home for your ideas. It is an app where you can find inspiration for your projects/ideas or even showcase your ideas to the world. Connect with developers who have your similar mindsets or ideas and explore a whole new world together and create life changing apps

### Form-11 Automator | React.js, SweetAlert2, Pdf-lib, Google Forms, Excel

[Live](#)   [Code](#)

A React application which automates the process of filling in the Form 11 PDF by just giving user specific inputs. The form is auto-downloaded at the end and all the user data is stored neatly in an excel sheet and a google form as well.

### CryptoChart | React.js, TypeScript, CoinGecko API, CSS3

[Live](#)   [Code](#)

A web app built using React.js, TypeScript and Pure CSS, showcasing the value, change in 24hrs of some top cryptocurrencies in a beautiful UI, integrated with the CoinGecko API to obtain real-time values for those crypto.

### Google 2.0 | Next.js, TypeScript, Tailwind CSS, Google API

[Code](#)

A google clone built using Next.js for faster server side rendering and routing properties, using the Google API for querying search results, and Tailwind.CSS for styling and responsiveness

## **Coursie** | React.js, Redux, Material-UI, APIs, Apex-Charts

[Live](#)[Code](#)

A web application like Udemy and Coursera where all kinds of courses are put up neatly, data being pulled from an API using axios, built using React and Redux and integrated with graphs for visualizing data of the provided courses, data presented neatly using cards and pagination, and integrated with a search bar for searching courses.

## **Streamy** | React.js, Firebase, Material-UI, React-Routers

[Live](#)[Code](#)

A YouTube clone focused on the UI, built using React, React-Routers, Material-UI, Firebase for hosting and cloud-firestore for the backend database

## **SoapBox** | React.js, Firebase, Material-UI

[Live](#)[Code](#)

A Social Media web application developed using react, tied using cloud firestore and deployed using firebase

## **NetworkIt** | React.js, Firebase, Material-UI, Redux, Firebase-auth

[Live](#)[Code](#)

A LinkedIn based web app built using redux in react and firebase, using material-ui for design and cloud-firestore for the database, as well as integrated Firebase authentication.

## **Tweety** | React.js, Firebase, Material-UI

[Live](#)[Code](#)

An insanely clean twitter clone built using React, Material-UI, Cloud Firestore for the backend database and firebase for hosting. No authentication required, focused on the UI

## *Technical Skills*

**Languages:** JavaScript, TypeScript, HTML/CSS, C, Python, Java

**Frameworks & Components:** ReactJS, Redux, NextJS, MaterialUI, TailwindCSS, SASS, Ant Design

**Tools & Technologies:** Visual Studio Code, Git, GitHub, Netlify, Firebase,

**Developer Tools:** React Testing Library, Chrome Dev Tools

**Design:** Figma, Canva

**Other base knowledge:** AI / ML, Finance, Blockchain, Crypto, Investing, Video Editing, Youtube SEO, Backend Engg

## *Education*

### **Mar Baselios College of Engineering & Technology**

Bachelor of Technology in Computer Science, with Honours  
(Engineering) **CGPA: 8.33 (10)**

2018 - 2022

Thiruvananthapuram, KL

## *Extracurricular*

### **DSC MBCET**

Web Developer

Conducting bootcamps, promoting the reach and being an active member in the club, mentoring projects related to web development alongside the lead of web in the club

### **ISTE MBCET**

Web Design Head

Developed a fully-fledged website for ISTE MBCET which is still being developed constantly, keeping it updated always. Conducted 30+ events for the members of the community and led various talks in the community.

### **Cricket Team MBCET**

Opener

Just a few unofficial matches, did not play a lot after COVID struck the world.

## *Interests & Hobbies*

- Cricket, Football
- Gaming
- Memes
- Finance, Investing, Crypto
- Technology
- YouTuber
